Courseware Solutions presents

THE Mathville WHERE KIDS LOVE MATH and Wordville HAVE FUN WITH WORDS SERIES

Software that students love and teachers trust.

Mathville Series Titles:

Mathville Kidway - 1st Grade
Mathville Jungleway - 2nd Grade
Mathville Speedway - 3rd Grade
Mathville Mindway - 4th Grade
Mathville Waterway - 5th Grade
Mathville Starway - 6th Grade
Mathville Middle School - Gr. 6-8
Mathville SkiQuations - Gr. 8-9

Our award-winning educational software is a unique combination of:

- broad curriculum coverage, that has earned the recommendations of many educators and school districts, and
- an applications-oriented, fun approach that has made "My students love it!" our most common teacher reaction.

Each series title addresses a wide range of grade-appropriate skills and comes on a CD-ROM that runs on both Windows and Macintosh computers. Use the teacher-friendly "insert the CD and go" operation to get started right away - no need to set up or register.

Wordville Series Titles:

Word Way - 3rd Grade
Write Way - 4th Grade
Spell Way - 5th to 8th Grade
Épellionnaire - 5th to 8th Grade

"Creating a challenging, engaging educational software series that children want to sit down to use is a monumental task. The Mathville Series does a superb job."

The National Parenting Center
In awarding its Seal of Approval

"As Computer Consultant for a large urban board I have implemented the entire suite of Mathville products for use in K to 9. Mathville products help students to 'feel' math. Highly recommended!"

John Irvine
of the Hamilton-Wentworth Catholic District School Board

"Our teacher reviewers commended this program for its depth of coverage and ease of use. '…I feel good about having my students explore this program.'"

SuperKids Educational Software Review
(www.superkids.com) in awarding its "Best of Year SuperKids Software Award" in the Math category.

"The choices of math strands and the range of ability level make this software a bargain for classroom teachers."
Susan Koch, Simi Valley, CA

1-888-MATHVILLE

1st Grade Math Software

Mathville kidWAY

Step right up to Mathville Kidway ***where kids love math!***

Watch your kids flock to this math midway where they'll find 8 entertaining midway contests that reinforce and extend their math skills.

Mathville Kidway *combines excellent curriculum and user-friendly fun.*

Practice in basic skills such as:

- counting, comparing, sorting and sequencing sets
- addition & subtraction (both facts & with objects)
- reading numerals & number words
- identifying 2 and 3-D geometric shapes

Activities that extend understanding in key areas such as:

- extending numerical & non-numerical patterns
- exploring symmetry, flips & turns
- problem solving & logic
- object graphs, pictographs & bar graphs
- collecting information & exploring probability

TECHNICAL REQUIREMENTS:

Multimedia IBM PC-compatible:

- 486 or higher
- Windows 3.x or 95 or higher
- SVGA 640 x 480, 256-color monitor
- 8 MB RAM
- CD-ROM drive
- Sound card
- Optional printer (recommended)

Macintosh:

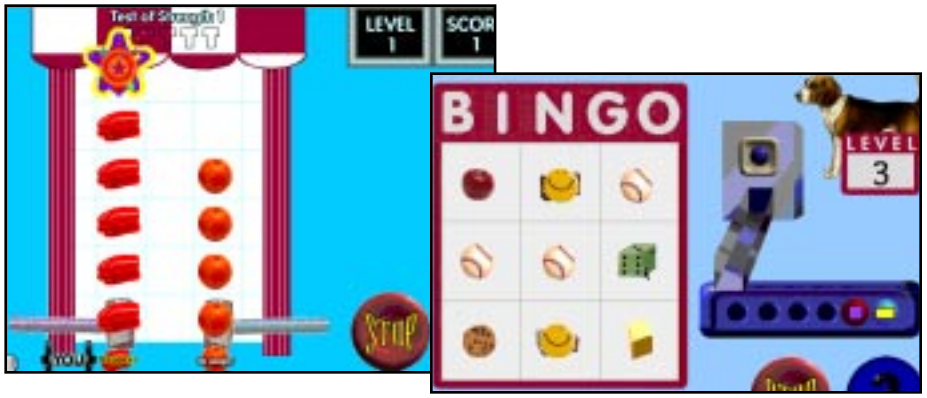
- System 7 or higher
- 640 x 480 color monitor
- 8 MB RAM
- CD-ROM drive
- Optional printer (recommended)

School Edition - $49.95
(extra CD offer + Manual)
5-CD Lab Pack - $125
Network License - $450
30-CD Site Pack - $595

Mathville kidWAY

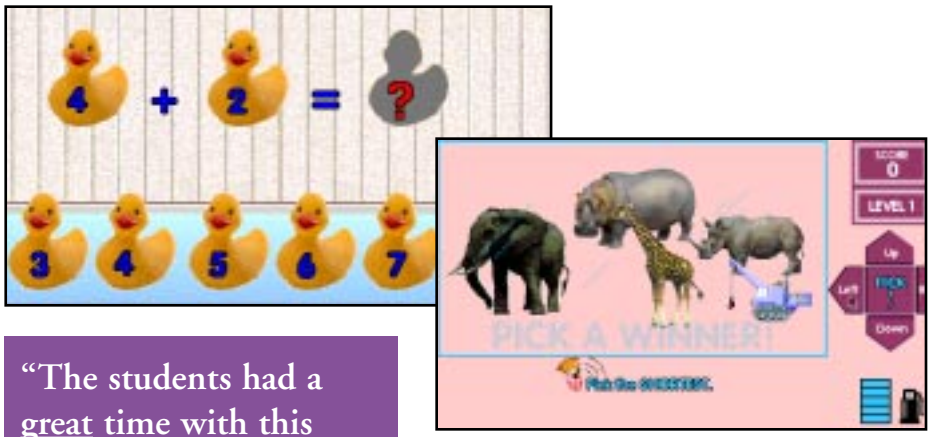
is a virtual math midway designed to provide hours of fun for kids from 5 to 8 years old. Eight midway games, each with many different levels, present math challenges from across the kindergarten to grade 2 curriculum. Kids truly LOVE math with Mathville Kidway!

It's brain over brawn at the Kidway "Test of Strength"
Sorting, counting and measurement skills get a real workout as you guess what the pictograph, object graph or bar graph will look like and try to ring the gong.



Geometry is in the cards in Kidway "Bingo"
Identify two and three-dimensional figures and recognize geometric shapes in everyday objects to fill your card.

You can't duck the hard ones at the "Duck Pond"
Race the clock to recall basic addition and subtraction facts at ten different levels.



Don't try to operate in "Pick a Winner!" without your pattern recognition skills.
Extend patterns, identify attributes and rules, compare, sort, and classify while picking the tallest, shortest, next in a series, etc.

"The students had a great time with this program!" C. Davis, Springfield, VA

"The students LOVE this program - I use it as a motivator: If you finish your work, you can play." L. Tucker, Gladewater, TX

Courseware Solutions Inc.

2nd Grade Math Software

where kids love math!

- More than 20 activities
- Praised by teachers, recommended by districts and boards
- Lots for 1st & 3rd Grades, too!

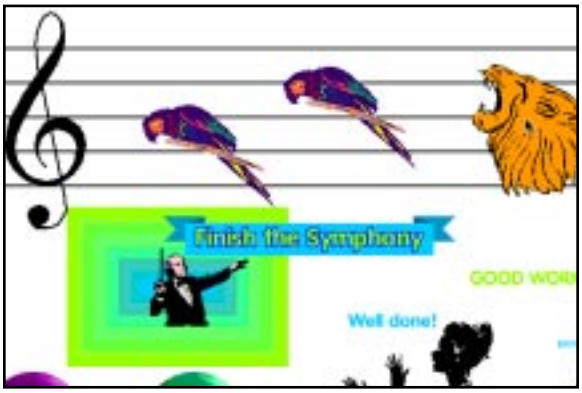
The National Parenting Center Seal of Approval

"We have a sign-up list in my classroom because this CD is so popular. My students love it and they are learning and remembering!!" F. Lucas-Hill, Petaluma, CA

Courseware Solutions Inc.

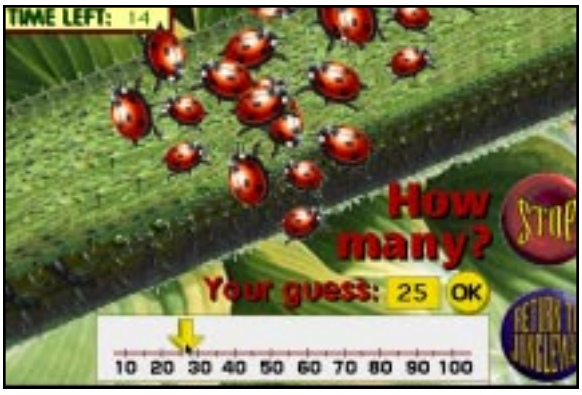
www.mathville.com 1-888-MATHVILLE

Illustrate and solve addition, subtraction, multiplication, division and even fractions WORD PROBLEMS.



Recognize and extend sound PATTERNS.

Identify 3-D GEOMETRIC OBJECTS.



Count & estimate sets of objects.

Math adventures await you in

the multimedia habitat with more than TWENTY fun-filled math activities for kids aged 6 to 9. Designed to add extra variety and excitement to ***1st, 2nd or 3rd grade classrooms****, this hybrid CD-ROM carries on the Mathville tradition of solid curriculum coverage and user-friendly fun.*

"…packed with interesting and educational things to do …puts the emphasis where it should be - on the pure fun (yes, ***fun****) of mathematics.* The Review Corner, rated 9.5 out of 10, Award of Excellence

Rated ***Exemplary*** by the Calif. Instructional Technology Clearinghouse for the Calif. Department of Education

MATH TOPICS include:

- Rounding & estimating
- Adding & counting
- Numerals & number words
- Word problems
- Patterns
- 2 and 3-D geometric shapes
- Problem solving & logic
- Time conversions
- Graphs & probability

Multimedia PC requirements:

- *486 or Pentium*
- *Windows 3.x or 95*
- *SVGA 640x480, 256-color monitor*
- *8 MB RAM*
- *CD-ROM drive*
- *Sound card*

Macintosh requirements:

- *System 7 or higher*
- *640 x 480 color monitor*

Mathville Mindway

ENTER MATHVILLE MINDWAY

and discover a multimedia midway filled with math challenges! TWELVE entertaining midway games challenge your math skills in a variety of topics taught in many **GRADES 3, 4 and 5** classrooms, including:

- addition, subtraction, multiplication & division
- fractions & decimals
- place value, ordering and estimation
- metric terms, weights and lengths
- divisibility, inequalities
- Venn diagrams & sorting
- numeric & geometric pattern recognition
- 2 and 3-D geometric shapes
- symmetry, flips & turns
- probability, chance and data graphs
- grids & directions
- balancing mass

"Comments from my class: *'Awesome! Fun! Great! Challenging!'* I loved it too!"

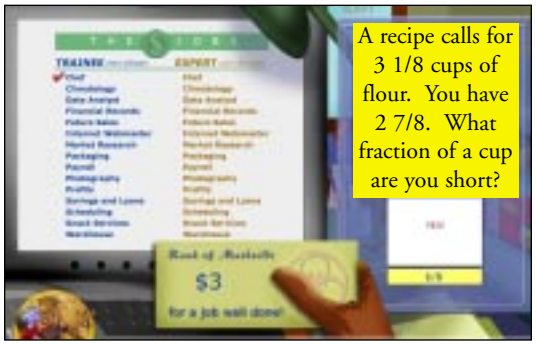
Grades 6 to 8 Everyday Math Skills

Welcome to the village of Mathville where math is part of everyday life. Use math skills to earn money, shop, and play sports and games. Generate worksheets and tests with the BONUS Teacher's eKit.

Mathville
WHERE KIDS LOVE MATH
MIDDLE SCHOOL



Go to Work and earn money by doing hundreds of different jobs, from managing your bank account to visualizing the three-dimensional shape of a flattened container.

Spend your hard-earned money to buy basic necessities, like Food, Clothing, and Housing. Without them, your life in Mathville comes to an abrupt end!

Develop a keen eye for estimating angles in Hockey, one of the five activities in Sports.

Play Soccer Mathville-style and you'll never look at a soccer ball in the same way again – you'll be seeing pentagons, probabilities and rotational symmetry!

With its unique combination of extensive curriculum content and user-friendly fun, the Mathville™ series has become a mainstay of math educators in thousands of schools. **Mathville™ MS** *v. 3.0 succeeds Mathville VIP as the latest, updated version of the original Mathville.*

Packed with activities designed to inspire creative problem-solving, **Mathville™ MS** *v. 3.0 reinforces and extends skills taught in many* ***GRADES 6 to 8*** *classrooms, including:*

- *decimals, fractions, ratios, and percent*
- *estimation*
- *exponents*
- *multistep word problems*
- *order of operations*
- *graphs and data*
- *area, perimeter, surface area, and volume*
- *pattern recognition*
- *estimating angles*
- *slides, flips and turns*
- *two- and three-dimensional figures*
- *probability*
- *integers*
- *algebraic expressions and substitution*

all within an applications-oriented, problem-solving environment that motivates even reluctant students.

"...keeps my classroom computer busy all day. Students eagerly wait their turns to learn mathematics in Mathville." *D. Cram, Rio Rancho, New Mexico*

NEW in **Mathville™ MS***:*

- *a printable session record of all activities completed by the student*
- *fresh new curriculum, graphics, characters, and problem sets*
- *Win XP and Mac OSX-native without excluding older systems*
- *lightning fast network performance*
- *an Internet-ready Deluxe Site License version*
- ***Teacher's eKit****, an early buyer's free BONUS, generates worksheets and tests, complete with answer keys. Curriculum charts with "hot links" make it easy to generate worksheets for specific topics or Mathville activities.*

How do you make Graphs of Linear Equations FUN?

Mathville™ SkiQuations

100% Money Back Guarantee

Help kids glide through the challenges of:

- plotting points
- finding slopes & intercepts
- graphing linear equations
- finding an equation from a line

and related analytic geometry concepts!

Hybrid
WIN/MAC
CD-ROM

Age: 13+
Grade:
8, 9 or 10

Courseware Solutions Inc.
www.mathville.com

The main screen shows the ten activities in order of difficulty, with the easiest activity at the bottom of the hill. The red flag shows that Hit the Slopes is the most difficult activity that has been successfully completed during this session.

Level 1 Slopes
The ski slope is STEEPER than the slope of your skis.
Adjust your equation's slope to be STEEPER.
Equation of the line of your skis:
y = 2 x

In Hit the Slopes, the student tries to align a skier with a randomly-generated hill by supplying a slope value. Instant feedback pinpoints errors and helps students improve their skills.

To reach Champion status in Hit the Slopes, students must complete Level 7, where slopes may be negative fractions and y-intercepts must also be supplied. After completing each level, students may print a screen similar to the one above.

ISBN 1-895691-93-1

9 781895 691931

Courseware Solutions Inc.
www.mathville.com
1-888-MATHVILLE

How do you make a tough topic like *Graphs of Linear Equations* **FUN**? Try Mathville SkiQuations**!**

TEN multilevel learning activities are arranged in order of difficulty on a ski hill, so that students can find their own level and work their way up gradually, until they've mastered the topic. Later, when it's time to review, they can hit the slopes and swoosh through a few practice runs to regain their expert form.

Topics covered include:

- ✔ plot points on the xy-plane
- ✔ fill in and plot from tables of values
- ✔ rearrange standard and point-intercept forms
- ✔ find slopes and intercepts
- ✔ graph equations
- ✔ find equations from graphs
- ✔ find equations given 2 points, slope and y-intercept, or slope and a point

Mathville SkiQuations

- ★ packs lots of curriculum into a dynamic, fun-filled package,
- ★ allows students to work independently at their own pace,
- ★ helps them learn to be responsible for their own learning,
- ★ encourages self-assessment and frequent review, and
- ★ motivates them to spend the extra time needed to fully master *Graphs of Linear Equations* and gain confidence in their own math abilities.

TEACHERS: Visit **www.mathville.com** for extra materials and more about the award-winning Mathville series for grades 1 - 9.

"One of the most useful pieces of software for the high school curriculum that I've seen in a long time, SkiQuations **basically covers all the Analytical Geometry in the grade nine course and the students love to use it."**
Honi Huyck, Greater Essex County DSB

"The concepts of x, y points, intercepts, equations and graphing has always been a rocky one for intermediate students. One of their complaints is that they will never 'use this information' so 'Why learn it?' SkiQuations **provides students with concepts, practice and application."**
Gail Lennon, Resource Links

1-888-MATHVILLE

ISBN 1-894659-01-5
9 781894 659017

Courseware Solutions,
creator of the Mathville series of educational software, presents:

Word Way

the ***FUN*** way to develop a way with words! **Word Way** is part of the Wordville Basic Language Skills series and, with its companion program **Write Way,** is suitable for use in **3rd or 4th grade**, depending upon individual classroom standards and requirements.

*Following directions to the letter spells success (and a five-letter mystery word!) for adventure-minded explorers in the **Special Terms** activity.*

*Search dense jungles of words for irregular plurals in **Plurals** Word Search. The computer makes sure you face a different challenge each time!*

*Be a quiz show star and sweep the board if you're an expert in the categories of **Prefixes, Suffixes, Abbreviations and Compounds**.*

Word Way is:

- keyed to standard language curriculum so that teachers can integrate it fully with classroom instruction
- highly motivating, making it ideal for remediation at any grade level
- easy to use, teacher and student-friendly

Word Way has **TEN** different activities, filled with endless combinations of randomly-generated words, providing a wealth of opportunities to apply language skills in a purposeful context.

The easy-to-read home page tracks all successes during the current session and when each activity is successfully completed, a page showing the skills used may be printed to record the achievement.

Educators love the teacher-friendly features such as:

- student assignment and tracking sheets
- assessment worksheets for students
- a teacher modification module for scheduling and assigning (download from www.wordville.com)

"The exercises provide excellent and age-appropriate practice with language arts skills ... the activities are quite intelligent and surprisingly fun ..."
The Review Corner in rating Word Way "Highly Recommended"

"The skills taught are great!."
Sandy Bayha, Desert Hot Springs, CA

"My daughter is using this ... She loves it. It's really wonderful to see her eyes light up when she's on the computer. Thank you for the wonderful software."

Courseware Solutions,
creator of the Mathville series of educational software, presents:

Write Way

the ***FUN*** way to sharpen basic language skills!

Write Way is part of the Wordville Basic Language Skills series and, with its companion program **Word Way**, is a great addition to **3rd** and **4th grade** classrooms.

*When you match up all the **Antonyms** and win an Easy game, you automatically move up to Expert where you have to uncover the hidden words.*

*Choose words to complete three verses of **Rhymes**, then click the PRINT button for a copy of your poem to save as a record of your achievement!*

*The goal is to expand your **Vocabulary** in this activity! Click the PRINT button and the page is a worksheet that you can fill in later on your own.*

It is:

- ★ keyed to standard language curriculum so that teachers can easily integrate it with classroom instruction
- ★ highly motivating, making it ideal for remediation at any grade level
- ★ easy to use - insert the CD, double-click the program, and click one of the activity pictures

Write Way has TEN activities, many with both Easy and Expert levels, providing a wide variety of opportunities for students to apply newly-acquired language skills.

A glance at the home page shows what's been done during each session, and individual activity completion pages can be printed as a record of skill development.

Educators love the teacher-friendly features such as:

- ★ student assignment and tracking sheets
- ★ assessment worksheets for students
- ★ a teacher modification module for scheduling and assigning (download from www.wordville.com)

"As always, your programs provide instruction and practice in a wide variety of essential skills."
Dan Delong, Durham DSB, Whitby, ON

"Is enjoyable and appealing to students and adults!"
Patricia Bell, McGaugh Elementary School, Seal Beach, CA

"This program is highly effective. It held the students' interest and made learning fun."
Curtis Baron, Annunciation School, Prince Rupert, BC

Grades 5 to 8
Spelling & Vocabulary

Kids love to star in game shows and become Spell Way millionaires!
Teachers can add their own words and view student records.
BONUS Teacher Kit includes worksheets and blackline masters.

Who wants to be a Spell Way Millionaire? Motivation is never a problem in this game.

Tricky HOMOPHONES are in the spotlight in this letter-by-letter guessing game.

Spell Way's version of Jeopardy uses word ROOTS as categories.

Spell Way

The motto of the ***Wordville*** series of curriculum-based software is: ***Have fun with words***. Spell Way makes that particularly easy for students from grades 5 to 8. Word games of all kinds, from TV game shows to crossword puzzles, challenge students to expand their vocabularies and become champion spellers to win Spell Way millions. Randomly chosen words, both spoken and written, and 10 multi-level activities make each Spell Way session a fresh new learning experience that students are eager to revisit time and time again.

Spell Way is packed with teacher-friendly features, including:

- ✔ grade-appropriate word lists that can be changed by teachers
- ✔ a printed Teacher Kit with supplementary activities, blackline masters, assignment sheets and student worksheets
- ✔ a special option to save student records for later review

"I have never seen students…including youngsters identified with LD or ADHD problems…become so eager to spell… Youngsters with vastly different abilities found the activities enjoyable and well paced." Elizabeth Connolly, St. Catherine of Sienna School, Franklin Square, NY

Media & Methods MAGAZINE 2003 AWARDS PORTFOLIO WINNERS

"Spell Way is wonderful! The students love it and keep asking if they can play it…the software is fabulous." Rana Holden, Concord P. S., ON

"It's a great product. It's interactive; it reaches all levels. The students were really engaged." Catherine Pianosi, Nova Scotia Dept. of Educ.

Épellionnaire, Spell Way's French alter ego, features 6 great activities. Use the program's French word list or add your own. Épellionnaire's a real bargain, priced at only 50% of the Spell Way list below. ***With all French text and audio, it's excellent not only for French speakers, but also for those learning French.***
